Preliminary Examination

FRENCH

Time Allowed : 45 minutes

You may use a bilingual dictionary during this examination

Imagine you are one of the people in the picture shown below. Write an essay of 120-150 words in French describing what you were doing and what happened subsequently. Your essay must be in the appropriate past tense or tenses and you will gain nothing by writing more than the number of words required, as your essay will be judged on its accuracy and on the variety of vocabulary and structure used, not on its length. **No credit will be given for irrelevant material.**
