Answer ANY FOUR QUESTIONS

All questions carry equal marks.

Credit will be given for referring to case studies and knowledge of current affairs.
You may draw diagrams to aid your answer.

Question 1) Rivers and Coasts
Explain how flooding impacts the human and physical environment.

Question 2) Earthquakes and Volcanoes
How and why does the response to volcanoes vary between MEDCs and LEDCs?

Question 3) Weather and Climate
What factors cause rainfall totals to vary across the United Kingdom?

Question 4) Economic Activity
Explain why primary and secondary economic activities require different location factors.

Question 5) Environmental Issues
Discuss how conflicting demands may lead to pressure on environmental resources.

Question 6) Fieldwork
Discuss the strengths and weaknesses of your fieldwork data collection method.
