RADLEY

Scholarship Examination

GEOGRAPHY

March 2016

Time allowed – 1 hour

Answer any THREE questions.

Question 1

What is the most important part of the water cycle, and why?

Question 2

Why might Ordnance Survey maps be useful in fieldwork?

Question 3

Industries in LEDCs* and MEDCs* operate in completely different ways. Do you agree with this statement, and why?

Question 4

Humans are unable to protect themselves against flooding. To what extent do you agree?

Question 5

Do you agree that only MEDCs* are able to respond effectively to tectonic hazards?

Question 6

How successful is the management of urban development?

*LEDCs = Less Economically Develop Country. *MEDCs = More Economically Developed country.

Credit will be given for referring to case studies and knowledge of current affairs beyond the Common Entrance specification.

You are expected to be able to write accurate, grammatical, well punctuated prose throughout this paper. You may use diagrams, where appropriate.
