- 8 The steepness of a railway track is shown by signs like this.

On the left of the sign the track is level.

On the right of the sign the track rises 1 metre for every 200 metres travelled horizontally.

\*8 (a)

Which side of this sign shows the steeper track?  
Show clearly how you decide.

You may use a diagram to explain your answer.

**8 (b)** The steepness can also be measured as a percentage.

For example      1 in 200      would be       $\frac{1}{200} \times 100 = 0.5\%$

The steepest railway line in Britain has a percentage of 2.5%.

Fill in this sign to show a steepness of 2.5%.
