

GCSE (9–1)

Combined Science A (Gateway Science)

J250/02: Paper 2 (Foundation Tier)

General Certificate of Secondary Education

Mark Scheme for June 2019

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

Annotations available in RM Assessor

Annotation	Meaning
	Correct response
	Incorrect response
	Omission mark
	Benefit of doubt given
	Contradiction
	Rounding error
	Error in number of significant figures
	Error carried forward
	Level 1
	Level 2
	Level 3
	Benefit of doubt not given
	Noted but no credit given
	Ignore

Abbreviations, annotations and conventions used in the detailed Mark Scheme (to include abbreviations and subject-specific conventions).

Annotation	Meaning
/	alternative and acceptable answers for the same marking point
✓	Separates marking points
DO NOT ALLOW	Answers which are not worthy of credit
IGNORE	Statements which are irrelevant
ALLOW	Answers that can be accepted
()	Words which are not essential to gain credit
—	Underlined words must be present in answer to score a mark
ECF	Error carried forward
AW	Alternative wording
ORA	Or reverse argument

Subject-specific Marking Instructions**INTRODUCTION**

Your first task as an Examiner is to become thoroughly familiar with the material on which the examination depends. This material includes:

- the specification, especially the assessment objectives
- the question paper
- the mark scheme.

You should ensure that you have copies of these materials.

You should ensure also that you are familiar with the administrative procedures related to the marking process. These are set out in the OCR booklet **Instructions for Examiners**. If you are examining for the first time, please read carefully **Appendix 5 Introduction to Script Marking: Notes for New Examiners**.

Please ask for help or guidance whenever you need it. Your first point of contact is your Team Leader.

The breakdown of Assessment Objectives for GCSE (9-1) in Combined Science A:

	Assessment Objective
AO1	Demonstrate knowledge and understanding of scientific ideas and scientific techniques and procedures.
AO1.1	Demonstrate knowledge and understanding of scientific ideas.
AO1.2	Demonstrate knowledge and understanding of scientific techniques and procedures.
AO2	Apply knowledge and understanding of scientific ideas and scientific enquiry, techniques and procedures.
AO2.1	Apply knowledge and understanding of scientific ideas.
AO2.2	Apply knowledge and understanding of scientific enquiry, techniques and procedures.
AO3	Analyse information and ideas to interpret and evaluate, make judgements and draw conclusions and develop and improve experimental procedures.
AO3.1	Analyse information and ideas to interpret and evaluate.
AO3.1a	Analyse information and ideas to interpret.
AO3.1b	Analyse information and ideas to evaluate.
AO3.2	Analyse information and ideas to make judgements and draw conclusions.
AO3.2a	Analyse information and ideas to make judgements.
AO3.2b	Analyse information and ideas to draw conclusions.
AO3.3	Analyse information and ideas to develop and improve experimental procedures.
AO3.3a	Analyse information and ideas to develop experimental procedures.
AO3.3b	Analyse information and ideas to improve experimental procedures.

For answers to Section A if an answer box is blank ALLOW correct indication of answer e.g. circled or underlined.

Question			Answer	Marks	AO element	Guidance
1			A	1	1.1	
2			A	1	1.1	
3			B	1	1.1	
4			A	1	2.2	
5			C	1	1.1	
6			D	1	1.1	
7			B	1	2.1	
8			C	1	1.1	
9			A	1	2.2	
10			C	1	2.2	

Question			Answer	Mark	AO element	Guidance
11	(a)	(i)	length of pea pod ✓	1	2.2	
11	(a)	(ii)	Any two from: variety/type/species of pea plant ✓ time of year that the peas/pods are selected / age of pea pod ✓ same conditions/environment the pea plants are grown in ✓	2	2.2	IGNORE time unqualified ALLOW named example of a condition e.g. light/water/minerals/temperature etc. IGNORE same weather
11	(b)	(i)	5 ✓	1	1.2	
11	(b)	(ii)	FIRST CHECK ANSWER ON ANSWER LINE If answer = 10 (mm) award 2 marks $50 \div 5$ ✓ =10 (mm) ✓	2	1.2	ALLOW ECF from 11(b)(i)
11	(c)		longer/bigger the pod the more seeds / ORA ✓ longer/bigger the pod, the longer the length of pod per seed / ORA ✓	2	3.2b	ALLOW ECF from 11(b)(ii) ALLOW longer the pod more distance seed has to grow / in larger pods the seeds are more spaced out
11	(d)		have a larger sample ✓	1	2.2	ALLOW collect/select pods at random IGNORE repeat unqualified

Question			Answer	Mark	AO element	Guidance
11	(e)	(i)	Any two from: (sun)light ✓ water / rain ✓ minerals ✓ temperature ✓ carbon dioxide ✓ pH of soil ✓	2	2.1	IGNORE sun / sunshine IGNORE nutrients / fertility ALLOW heat ALLOW pollution qualified eg acid rain IGNORE biotic factors eg disease / predation / competition IGNORE humidity / weather
11	(e)	(ii)	multiple genes involved in skin colour ✓	1	1.1	ALLOW references to the environmental effects of sunlight IGNORE different climates

Question			Answer	Mark	AO element	Guidance
12	(a)		nucleus ✓	1	2.1	
12	(b)	(i)	prevents the replication of HIV ✓	1	2.1	ALLOW references to prevention of new viruses being made ALLOW prevents (HIV) genes being copied
12	(b)	(ii)	morally wrong / ethical concerns ✓ might cause changes to human genes ✓	2	2.1	ALLOW idea of religious reasons / religious belief / unethical IGNORE 'playing God' / unnatural IGNORE cause unforeseen issues unless qualified ALLOW cause cancer / cause mutations
12	(c)	(i)	the entire genetic material of an organism / complete set of DNA of an organism / all of an organisms genes ✓	1	1.1	ALLOW all of the information needed to build and maintain that organism IGNORE DNA make-up ALLOW species instead of organism
12	(c)	(ii)	Any two from: identify if a person has the gene(s) (that are affected by HIV) ✓ identify which gene needs to be deleted/altered ✓ allows treatments/drugs to be developed/produced ✓	2	2.1	IGNORE just identify the gene ALLOW idea that the correct drugs/treatments can be chosen/developed IGNORE just help with the treatment

Question			Answer	Mark	AO element	Guidance
*12	(d)		<p>Please refer to the marking instructions on page 4 of this mark scheme for guidance on how to mark this question.</p> <p>Level 3 (5–6 marks) Detailed description of how HIV is spread. AND Provides a detailed suggestion of how a centre can contribute to reducing the spread.</p> <p><i>There is a well-developed line of reasoning which is clear and logically structured. The information presented is relevant and substantiated.</i></p> <p>Level 2 (3–4 marks) Description of how HIV is spread. AND Provides a suggestion of how a centre can contribute to reducing the spread.</p> <p><i>There is a line of reasoning presented with some structure. The information presented is relevant and supported by some evidence.</i></p> <p>Level 1 (1–2 marks) Description of how HIV is spread. OR Provides a suggestion of how a centre can contribute to reducing the spread.</p> <p><i>There is an attempt at a logical structure with a line of reasoning. The information is in the most part relevant.</i></p> <p>0 marks <i>No response or no response worthy of credit.</i></p>	6	4x 1.1 2 x 3.1a	<p>AO1.1 Demonstrates knowledge and understanding of scientific ideas about how HIV is transmitted</p> <ul style="list-style-type: none"> • HIV is virus • transmitted through body fluids • sexual contact / blood to blood transmission / sharing needles / across the placenta <p>AO3.1a Analyse information and ideas to interpret and evaluate how the centre may reduce the spread of HIV</p> <ul style="list-style-type: none"> • identify individuals with HIV and so identify those at risk of passing it on • education of individuals about the cause of HIV / how it is passed on / how to avoid spread • provide free condoms / sterile needles • idea that centre can give treatment to reduce viral load so that it cannot be passed on

Question			Answer	Mark	AO element	Guidance
12	(e)		<p>Any two from:</p> <p>make antibodies ✓</p> <p>engulf the bacteria/pathogens/virus ✓</p> <p>digests the bacteria/pathogens/virus ✓</p> <p>produce antitoxins ✓</p>	2	1.1	<p>mark any named type of WBC as just generic WBC eg lymphocytes digest bacteria = 1 mark</p> <p>ALLOW phagocytosis</p> <p>IGNORE engulf the disease</p> <p>IGNORE eats/fights/destroys/kills the pathogen</p> <p>ALLOW breakdown the bacteria/pathogens/virus</p>

Question			Answer	Mark	AO element	Guidance
13	(a)		genetic variation/genes/alleles/DNA✓	1	2.1	IGNORE idea of environment factors eg diet / physical damage ALLOW chromosomes / genotype DO NOT ALLOW idea that phenotype determines the characteristic
13	(b)		mutation causes some (male) butterflies to be resistant✓ idea that surviving (male) butterflies mate✓ resistant (male) butterflies can pass on gene/allele for resistance✓ over many generations the number of resistant (male) butterflies will increase ✓	4	1.1 2.1 1.1 2.1	ALLOW reference to the 1% as the surviving butterflies
13	(c)		new discoveries / new evidence is found / increased knowledge ✓ due to new technologies/equipment being developed ✓	2	1.1	ALLOW comparison of DNA / detailed cell structure / similarities in DNA/proteins / finding new fossils ALLOW developments in microscopy / DNA testing ✓ IGNORE methods are improved

Question			Answer	Mark	AO element	Guidance
14	(a)		insulin is being produced / Type 1 doesn't produce insulin ✓ blood glucose is taking a long time to be reduced ✓	2	2.1 3.1a	ALLOW insulin level increases ALLOW body is resistant to insulin / body is not responding to insulin blood glucose is not being controlled even though insulin is made = 2 marks
14	(b)	(i)	increased body mass or weight / obesity / being overweight ✓	1	3.1a	ALLOW being fat
14	(b)	(ii)	go on a diet / reduce sugar/fat in diet / exercise / be more active ✓	1	2.1	IGNORE eat healthy food / healthy diet ALLOW eat less

Question			Answer	Mark	AO element	Guidance
15	(a)		(sun)light (intensity) / air movement / temperature / rain ✓	1	1.1	ALLOW windy conditions ALLOW salt concentration/water content of soil ALLOW humidity / heat / moisture IGNORE Sun / climate change / root length IGNORE soil pH / soil type DO NOT ALLOW rate of photosynthesis
15	(b)	(i)	photosynthesis ✓	1	1.1	
15	(b)	(ii)	decomposition ✓	1	1.1	
15	(c)	(i)	<p>For Any one from: idea that there is a rise over the last 20 000 years/recently ✓</p> <p>levels now are the highest ever (in last 160 000 years) ✓</p> <p>Against Any one from: but there have been (big) fluctuations ✓</p> <p>idea that levels have decreased before ✓</p> <p>similar levels 120 000 years ago ✓</p>	2	3.1b	<p>ALLOW any number in range 0 to 40 000 for 'recently'</p> <p>ALLOW comparison that uses correct data e.g. present day there is 345(ppm) 160 000 years ago (only) 200(ppm)</p> <p>ALLOW before present day levels were (much) lower</p> <p>ALLOW has increased before and decreased ALLOW shown variation in past / hasn't increased consistently</p>

Question			Answer	Mark	AO element	Guidance
15	(c)	(ii)	<p>increase in/more carbon/carbon dioxide released/produced (into the atmosphere) ✓</p> <p>decrease in/less carbon/carbon dioxide removed (from atmosphere) ✓</p> <p>BUT carbon/carbon dioxide is being released/produced (into the atmosphere) faster than it is removed ✓✓</p>	2	3.2a	<p>must be comparative, IGNORE just 'large amounts' / 'lots'</p> <p>IGNORE just 'levels of carbon/carbon dioxide have increased'</p> <p>BUT ALLOW 'levels of carbon/carbon dioxide going into the atmosphere have increased'</p> <p>IGNORE references to ozone</p> <p>ALLOW there is more carbon/carbon dioxide being released/produced (into the atmosphere) than removed ✓✓</p>
15	(c)	(iii)	<p>Max. one from: increased use/burning fossil fuels (releasing CO₂) ✓</p> <p>deforestation / removing plants/trees ✓</p> <p>Max. two from: reduction of biodiversity ✓</p> <p>species may become extinct/die out ✓</p> <p>due to loss/destruction of habitats ✓</p>	3	<p>1 x 2.1</p> <p>2 x 3.1a</p>	<p>ALLOW named fossil fuel</p> <p>IGNORE unqualified examples e.g. more cars</p> <p>ALLOW species disappear</p> <p>IGNORE just 'animals and plants die'</p> <p>ALLOW examples of habitat destruction e.g. less Arctic ice</p>
15	(d)		<p>breed the shiny leaved plants that give the highest yields ✓</p> <p>OR breed shiny leaved plants with plants that give high yield ✓</p> <p>THEN choose/grow/clone offspring that have the shiniest leaves and highest yield ✓</p>	2	2.1
