Question number	Answer	Notes	Marks
1 (a)	easier to see / no need to stain / contrast / cytoplasm is red / eq;		1
(b) (i)	1. movement of <u>water</u>; 2. from dilute to more concentrated solution / eq; 3. through partially permeable membrane / eq;		2
(ii)	(in distilled water) 1. water into cells; 2. outside solution/distilled water more dilute / down concentration gradient / eq; 3. cell membrane against cell wall / eq; 4. <u>turgid</u>; (allow converse in salt solution for each point) 1. water leaves cell; 2. outside solution/distilled water less concentrated / eq; 3. cell membrane shrinks away from cell wall /eq 4. <u>plasmolysed</u> / <u>flaccid</u>;		4
(c)	1. water into red blood cell / eq; 2. cells burst / haemolysis / eq; 3. no cell wall;		2

Total 9 marks

Question number	Answer	Notes	Marks
2	1. high **humidity decreases rate;** 2. reduced concentration gradient / eq; 3. high **wind increases rate** ; 4. increased concentration gradient / eq; 5. high **temperature increases rate** ; 6. more (kinetic) energy / more evaporation / eq; 7. high **light increases rate** ; 8. stomata open / eq;	One mark for condition and change in transpiration second mark for explanation of change Allow converse throughout	5

Total 5 marks

Question number	Answer	Notes	Marks
3 (a)	protect eyes / prevent blindness / eq;		1
(b)	1. diffusion; 2. hi concentration to low concentration / eq;		2
(c)	1;		1
(d) (i)	surface area 24 unit cm^2;; or surface area 2400 unit mm^2;;	If number wrong but units cm^2 or mm^2 = 1	Max 2
(ii)	volume 8 unit cm^3;; or volume 8000 unit mm^3;;	If number wrong but units cm^3 or mm^3 = 1	Max 2

TOTAL 14 MARKS

Question number	Answer	Notes	Marks
5 (a) (i)	movement of particles/ions/molecules/gas from a high concentration to a low concentration / down a concentration gradient;	ignore substances / liquid ignore along / across	1
(ii)	3 mm;		1
(iii)	must be clear in middle and not drawn outside cube;	allow if border not shaded	1
(b)	cube shows more penetration of dye at any one edge and clear in middle;	allow if uneven allow if border not shaded	1
(c)	1. temperature (increased); 2. particles have more (kinetic) energy / move faster / more movement / eq; OR 3. concentration of dye (increased); 4. increased gradient / more particles / eq; OR 5. co entration of agar (increased); 6. reduces speed of particle movement / eq;	allow converse ignore more collisions	maximum of two factors Max 4

Question number	Answer	Notes	Marks
5 (d)	1. dye does not reach middle of cube / takes longer to reach middle of cube / reaches lower proportion; 2. large organisms / large cubes have small SA:VOL; 3. (i large organisms) diffusion is slow / diffusion takes too long / diffusion is insufficient / diffusion is affected by distance / eq; 4. eed to get oxygen / glucose to cells / all of the body;	allow converse	Max 3
