Item B

Bullying is a sensitive problem for schools. Schools have procedures and policies in place to deal with bullying. If a school is perceived to have high levels of bullying, it could prove damaging to their reputation within the community. Bullying can take a number of different forms. When researching bullying, sociologists often look at pupil peer groups in school and at power differences between pupil groups.

Applying material from **Item B** and your knowledge of research methods, evaluate the strengths and limitations of using unstructured interviews to investigate pupils' experiences of bullying in schools.
